

Toxins: Gut
 Food and water contamination:
 Pesticides, heavy metals, food additives, chargrilled meat

Toxins: Lung
 Air pollution:
 Petrochemicals, heavy metals, cigarette smoke

Toxins: Skin
 Chemical absorption:
 Cosmetics, clothes, industrial exposure

Dysbiosis
 Endotoxin, toxin activation and deconjugation

Stored toxins
 Heavy metals, organochlorines, lipophilic toxins

Acidosis
 Poor toxin clearance

Leaky gut:
 Mucosal, liver and systemic inflammation

Poor phase I, II, III detoxification

REMOVE

- Antimicrobial Herbs
- High Potency Colostrum with Glyconutrients

RENEW

- Choice of probiotic
- Detox Greens

RELEASE

- Nutritional Support for Detoxification
- Phytonutrients for Detoxification

KEY

	Targets of detoxification
	Toxin accumulation
	Toxin removal

Detox Diet and Lifestyle

Faeces
Toxin excretion

Urine
Toxin excretion

Bile
Toxin removal
